

My name is Douglas Hope and I am writing this to convey how important K-LOVE is to me and my family. I was an active duty military member, away from my family but I could always turn to K-LOVE for a sense of home. That is the wonderful thing about K-Love, that no matter where you are you can tune in. I am sure that there are many military members as well as non military members that feel the same way.

My name is Michelle Hope, I am Douglas' wife. I also want to state how important K-LOVE is to me. Being a military spouse is not easy, you have to go to many different places and most of the time you are away from your family. When I moved to New York it was difficult having to start over again in an unfamiliar place. However, it was such a comforting feeling knowing that I could listen to K-LOVE here. I can listen to the radio at home, in the car and even at work through klove.com. My husband and I are really blessed to be able to listen to such a wonderful Christian station.
